DETAILS 'A'

SECTION A-A

EXTRACTABLE TROUSERS HOLDER

Trouser holder, completely extractable, on anodised aluminium guides sliding on balls.

Its fixing on one side only (either right-hand or left-hand) does not bind it to the wardrobe width.

Each trouser holder is equipped with 8 trouser supports provided with tongs to hold skirts and trousers both hanging or folded.

TECHNICAL DATA:

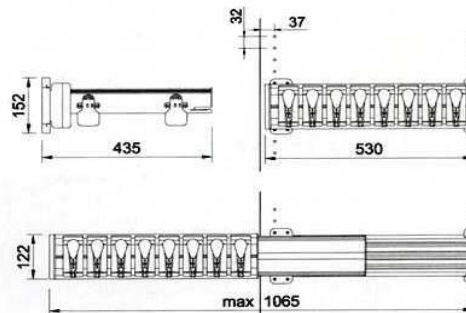

Capacity: 16 pairs of trousers

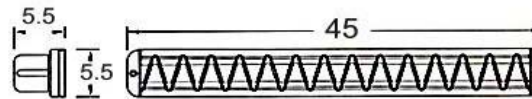

Maximum load: kg. 8

Material and finishing: plastic parts in polyamide resin in light grey colour reinforced with fibreglass, profiles in anodised aluminium silver colour.

Applications:

directly into the "system 32" line of holes with screws included in the package.

Fixed Tie/Belt/Foulard Rack - 27 places

Single aluminium profile. It can be fitted either inside the wardrobe or to its door (or even directly to the wall).

Length: 45cm

141 B	Black
141 A	Alu

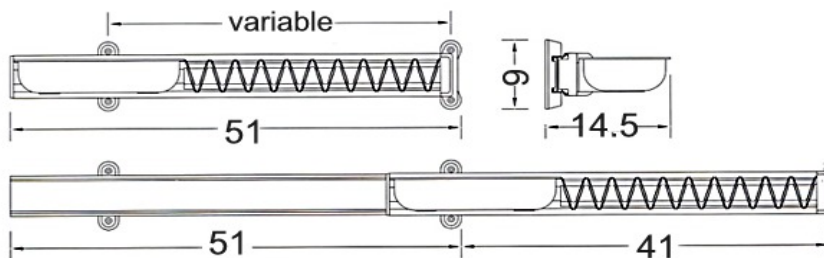

Extractable Tie/Belt/Foulard Rack With Small Vessel - 19 Places including a transparent bowl for the small objects kept in your pockets.

The double aluminium profile allows the ties pull out from the wardrobe.

The fixing supports fit to the standard "System 32" perforation, the rear support slides to allow the positioning on boring having different depth.

The transparent plastic bowl is fixed to the sliding profiles.

Length: min 51 cm (closed)
max 92 cm (extended)

142 B	Black
142 A	Alu
